Head Shape

It's important to develop a familiarity with the more 'common proportions' of the skull/head – however, this book wouldn't be called **FUN with FACES** if we didn't push the boundaries! When you are comfortable with drawing basic head construction, try playing with the proportions of the cranium and jaw! By stretching, shrinking or expanding these shapes, we can very quickly give a face an immediate sense of character.

Sometimes, different proportions lend themselves quite easily to becoming specific character types. For example, bigger jaws and smaller craniums produce fantastic 'meatheads' and tough guys. Big craniums = big brains, for your smarter characters. Thin heads and small jaws convey characters that are usually a little more fragile. The list goes on!
